

KORE 10

* Non-binding image

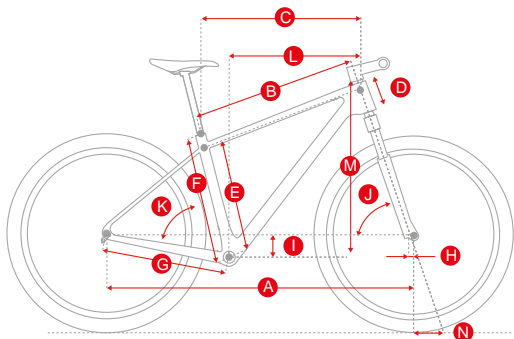

DESCRIPTION / GEOMETRY

The new Kore has been redesigned in 2022 with the goal of get a more attractive bike, more powerfull and more battery life.

Its new 6061 aluminum frame, built under the premises of the **G2** design philosophy, offers the user more harmonious lines and a comfort geometry without forgetting the performance.

Reliable and robust components, the powerful fourth-generation Bosch drive system and the 625 kWh battery will allow you to tackle longer routes, faster and with less effort. Fun is guaranteed.

Break barriers and enjoy the mountain without restrictions!
