

# TEMPO 00

\* Non-binding image

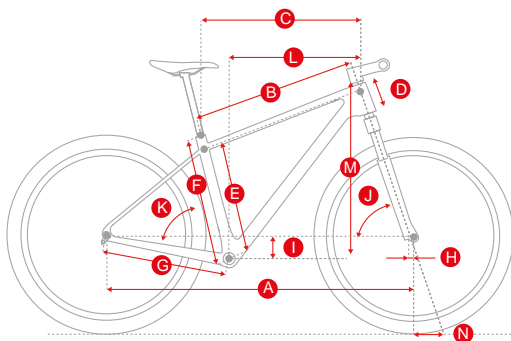

## DESCRIPTION / GEOMETRY

Functionality, speed and comfort in only one bike. Your urban rides will be an easy task with both versions of Tempo, it doesn't matter if you ride the naked or the model with integrated fenders.

Thanks to the 250 w ebikemotion® motor you could choose the most direct path to your destination without worrying about the steep climbs.

The great autonomy of its 250w integrated battery and its three levels of assistance will take you to your destination safe and sound.

With the G1 design where the comfort is of prime importance, a minimalist line and a fine selection of components, the MMR Tempo will be your perfect partner for going to the supermarket, to your job, for an easy ride through the city with your friends or just for drink your daily dose of coffee
