

# X-BEAT 00

\* Non-binding image

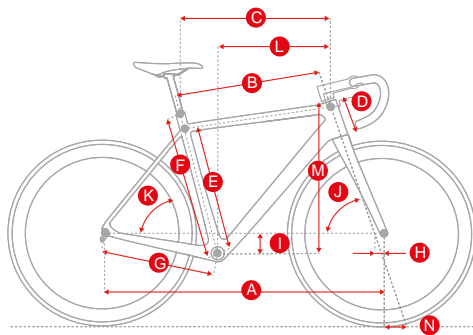

## DESCRIPTION / GEOMETRY

Discovering new routes and getting away from the busiest roads has never been so accessible before.

With the MAHLE ebikemotion® motor and battery your adventures will be epic. You will enjoy a light, reliable and stylish Ebike thanks to its integrated battery and the powerful motor in the rear hub.

The possibility of adding a second 250 wh battery in the rear bottle cage, racks and fenders make this bike the perfect vehicle for your travels!

A 6061 aluminum frame with carbon fork built under the parameters of the G1 design philosophy, results in a versatile, agile and extraordinarily comfortable bike. If you consider yourself an adventurer, the X-Beat is definitely your bike.
